| 8:30 AM-8:45 AM | General Welcome                                                        | Chi-Chang Kao  
Director, SLAC National Accelerator Laboratory                               |
| 8:45 AM-9:15 AM | The Vision for an X-Ray Free Electron Laser                            | Claudio Pellegrini  
Professor Emeritus, University of California, Los Angeles  
Adjunct Professor of Photon Science, SLAC National Accelerator Laboratory |
| 9:15 AM-10:00 AM | Panel Discussion: LCLS, From Vision to Reality                          | Panel Chair: Keith Hodgson  
Professor of Chemistry, Stanford University                                      |
|              | Panel Members                                                          |                                                                                |
|              | Arthur Bienenstock  
Associate Director, Wallenberg Research Link  
Special Assistant to the President for Federal Research Policy  
Professor Emeritus of Photon Science, Stanford University | Pat Dehmer  
Deputy Director (ret.), U.S. Department of Energy Office of Science             |
|              | David Fritz  
LCLS Instruments Program Director, SLAC National Accelerator Laboratory | John Galayda  
LCLS Project Director, SLAC National Accelerator Laboratory                    |
|              | Janos Hajdu  
Senior Professor of Cellular and Molecular Biology, Uppsala University | Jochen Schneider  
Photon Science Research Director (ret.), Deutsches Elektronen-Synchrotron DESY |
|              | Joachim Stöhr  
Professor Emeritus of Photon Science, Stanford University  
Director Emeritus, Linac Coherent Light Source |                                                                                |
| 10:00 AM-10:30 AM | Break                                                                  |                                                                                |
| 10:30 AM-11:15 AM | Panel Discussion: LCLS, From Vision to Reality (continued)              |                                                                                |
| 11:15 AM-11:30 PM | Group Photo - Entrance of Science & User Support Building (053)          |                                                                                |
| 11:30 PM-1:00 PM | Lunch                                                                  |                                                                                |
| 1:00 PM-1:30 PM | LCLS Performance: Exceeding Expectations                                | Zhirong Huang  
Associate Professor, Stanford University  
Division Director of Accelerator R&D, SLAC National Accelerator Laboratory |
| 1:30 PM-2:00 PM | AMO and Chemical Science                                               | Linda Young  
Distinguished Fellow, Argonne National Laboratory                              |
| 2:00 PM-2:30 PM | Bioscience                                                             | Axel Brunger  
Professor of Molecular and Cellular Physiology, Stanford University           |
| 2:30 PM-3:00 PM | Materials Science                                                      | Zhi-Xun Shen  
Paul Pigott Professor of Physical Sciences, Stanford University               |
| 3:00 PM-3:30 PM | Break                                                                  |                                                                                |
| 3:30 PM-4:00 PM | International Perspective                                              | Christoph Quittmann  
Professor of Physics, Lund University                                              |
| 4:00 PM-4:30 PM | Next Steps: LCLS-II and the Future                                     | Mike Dunne  
Director, Linac Coherent Light Source                                           |
| 4:30 PM-4:45 PM | Perspective                                                            | Chris Fall  
Senior Advisor to the Undersecretary for Energy                               |
| 4:45 PM-5:00 PM | Congratulations                                                         | Persis Drell  
Provost, Stanford University                                                     |
| 5:00 PM-6:00 PM | Reception                                                              | Main Lobby, Science & User Support Building (053)                               |
| 6:00 PM      | Shuttle to Symposium Dinner (by invitation)                            | Entrance of Science & User Support Building (053)                               |
